

Assessment of Value PUTM UK Listed Equity Unit Trust ("the Fund")

31 May 2022

Dear Investor,

Assessment of Value for PUTM UK Listed Equity Unit Trust ("the Fund")

The FCA requires all UK regulated Authorised Fund Managers (AFMs) to perform an annual Assessment of Value ("AoV") for each unit class of each of the funds being managed. Regulations require the output of this assessment to be made publicly available in an annually published report providing investors with a comprehensive view on the value of the funds and context to any corrective action, if any, required by the AFM.

This report has been prepared by Phoenix Unit Trust Managers Limited ("PUTM") to enable you to make an assessment of value of the Fund. It is part of our ongoing dialogue with you to ensure that your objectives are being identified and met.

Background to Assessment of Value

Assessment of value requires consideration of a specific set of criteria defined by the FCA. These are outlined in the FCAs "seven pillars" which are summarised in this report, along with the outcome of each assessment illustrated by a Red, Amber or Green rating.

In performing the assessment of value, PUTM as the AFM of our funds, have taken into account a combination of factors, including the return achieved, price paid, risk taken and the quality and range of services provided by the asset manager. This has been considered in the context of the investment objectives and policy for the fund, the target investor, the recommended holding period, market comparisons including the ability to take advantage of economies of scale.

Overall Fund AoV Outcome

PUTM are comfortable that the Fund meets the required Assessment of Value criteria. This is summarised below and further details are available in the next page.

Fund	Quality of Service	Performance	AFM Costs	Economies of Scale	Comparable market rates	Comparable Services	Classes of Units	Overall Fund Rating
PUTM UK Listed Equity Unit Trust (2021)								
PUTM UK Listed Equity Unit Trust (2022)								

Conclusion:

PUTM are comfortable that the Fund meets the required Assessment of Value criteria. Performance of the Fund has improved following the appointment of the new investment manager effective from 1 July 2020, and will continue to be monitored by the Investment Committee and PUTM Board.

The Board of Phoenix Unit Trust Managers Limited

Assessment of Value Criteria

Pillar 1: Quality of Service						
This pillar focuses on the range and quality of services provided to unitholders. When assessing the quality of s suggests the AFM should have regard to the quality of service it provides and the quality of service provided by provider to the AFM on its behalf. In addition, consideration is made of the quality of the investment process us managing the scheme property. We have also taken into account the level and type of customer complaints, br service provider issues as appropriate.	a delegated external service ed to make decisions about					
Outcome of PUTM are comfortable that the fund meets the required Assessment of Value criteria.	Green					
Action: No action required.						
Pillar 2: Performance						
This pillar focuses on performance of the fund. We have assessed performance over an appropriate timescale policy, strategy and risk management. Performance is measured net of all fees and charges. In considering pe Performance over time vs benchmark, being the 1 year, 2-year 5-year cumulative performance vs benchmark; a specific performance objectives of the fund.	erformance, we reviewed (i)					
PUTM are comfortable that the fund meets the required Assessment of Value criteria. Outcome of The fund underperformed the benchmark over 1, 3 and 5 years which was under the assessment: previous investment manager, but has seen improved performance since following the appointment of a new investment manager effective from July 2020.	Green					
Action: No immediate action.						
Pillar 3: AFM costs - general						
This pillar focuses on the fund costs included in the Ongoing Charges (OCF). In considering cost, we have take investing, including any adviser charges, platform charges, adviser fees and the on-going annual management account the degree of active management, the fund's composition of performance compared to its benchmark, ability of larger funds to benefit from economies of scale.	charge. We have taken into
